DETAILED ACTION

1. The amendment filed on 2/6/06 has been entered.

Continued Examination Under 37 CFR 1.114

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/6/06 has been entered.

Claim Rejections - 35 USC § 103

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
4. Claims 23, 26, 27, 29 and 33-36 are rejected under 35 U.S.C. 103(a) as being unpatentable over Benzing (WO 00/51810) in view of Oldeman (US 4,922,774).

Benzing discloses the invention substantially as claimed except that it appears that Benzing lacks the second support surface being not tangent to the first support surface. However, Oldeman teaches an anvil (9) having first and second support surfaces that are not tangent to each other. Moreover, such a configuration appears to work equally well in facilitating the cut of the material. Note Figs. 1-2. Thus, it would have been obvious to the ordinary artisan at the time of the instant invention to modify

Art Unit: 3724

the invention of Benzing to thereby have a non-tangent second surface for the reasons stated supra.

Regarding the inclination ranges of theta two, they are deemed to be obvious matter of design choice.

Allowable Subject Matter

5. Claims 1-5, 20 and 22 are allowed.

Response to Arguments

6. Applicant's arguments with respect to the pending claims have been considered but are moot in view of the new ground(s) of rejection.
